## INTRODUCTORY NOTE

The *Monthly Bibliography - Part II - Selected Articles* is a publication prepared by the United Nations Library in Geneva and is, starting with the September 1986 issue, one of the products of the United Nations Bibliographic Information System (UNBIS) in the framework of the UNBIS network.

The Monthly Bibliography provides current information on periodical literature and contributions to collective works of interest to the United Nations and the international community. It includes a selective listing of articles from about 500 periodicals indexed at the United Nations Library in Geneva and at the Dag Hammarskjöld Library in New York.

The Bibliography provides full bibliographic description with each citation in accordance with accepted international standards such as the Anglo-American Cataloguing Rules, 2nd edition, 1978 and the International Standard Bibliographic Description (ISBD).

Two call numbers are generally given for each entry, "UNOG Call No." indicates journals available at the United Nations Library in Geneva and "DHL Call No." indicates journals available at the Dag Hammarskjöld Library in New York. If only one call number appears, this indicates that the journal is only available in the Library mentioned.

The list of citations is followed by three indexes: a personal and corporate author index, a subject index which includes geographical terms and a title index.

The January issue of each year provides a list of periodicals analyzed during the previous year.

The November and December issues are combined into a single volume.

## NOTE D'INTRODUCTION

La *Bibliographie mensuelle - Partie II - Articles sélectionnés* est une publication établie par la Bibliothèque des Nations Unies à Genève. Elle est, à partir du numéro de septembre 1986, l'un des produits du Système d'information bibliographique automatisé de l'ONU (UNBIS).

Cette bibliographie fournit des informations courantes sur la littérature périodique et les ouvrages collectifs présentant un intérêt pour les Nations Unies et la communauté internationale. Elle contient une sélection d'articles d'environ 500 périodiques indexés par la Bibliothèque des Nations Unies à Genève et la Bibliothèque Dag Hammarskjöld à New York.

La Bibliographie donne une description bibliographique complète de chaque article, utilisant les règles acceptées au niveau international, telles que les Anglo-American Cataloguing Rules (Règles anglo-américaines d'établissement de catalogues, 2$^{e}$ édition 1978) ou celles qui sont énoncées dans la description bibliographique internationale normalisée (ISBD).

La localisation des revues est indiquée généralement par deux cotes, celle utilisée par la Bibliothèque de l'ONU à Genève est indiquée par "UNOG call No." et celle utilisée par la Bibliothèque Dag Hammarskjöld à New York est indiquée par "DHL call No.". Si un article ne porte qu'une seule cote cela signifie que la revue n'existe que dans la Bibliothèque mentionnée.

La liste des citations est suivie de trois index : un index par auteurs (vedettes-auteurs et collectivités-auteurs), un index par matières y compris les sujets géographiques et un index par titres.

Le numéro de janvier de chaque année contient une liste des périodiques analysés durant l'année écoulée.

Les numéros de novembre et décembre sont groupés en un seul volume.
